2. Talmidim/Talmidos may not use a smart phone (e.g. a Blackberry, Android or iPhone) or any cell phone that is presently signed up for Internet access, even temporarily.

Text Messaging and the calling of "non-kosher" numbers and chat lines has ר"ל been a source of ruin to many Talmidim/Talmidos. Therefore, any usage of a cell phone by a Talmid/Talmidah must be closely monitored.

### **IV. Computers Without Internet Access:**

#### **אזהרה:**

Computers, that *supposedly* have no Internet access, can in many cases, be easily connected to the Internet. The software is free. Therefore, it is strongly advised that any computer accessible to Talmidim/Talmidos be located in an area that is visible to parents.

### **V. Laptop and Tablet Computers**
